

Cost of Attendance

In developing Southwestern's cost of attendance, the financial aid office uses the tuition, required fees, typical room and board charges, allowances for books and supplies, travel, and personal expenses. The intent is to take into consideration all the expenses incurred by the family.

The two most common cost of attendance tables are listed here. These costs should give you an idea of what costs to expect. Please be reminded that the cost of attendance is only used to determine your financial need. It is not an indication of what you will be charged. For more information about the college's charges, visit the [Paying Your Account](#) section of this website.

2005-2006 Dependent

Item	Semester	Year
Tuition	\$ 8059	\$16,118
Room & Board	\$ 2,086	\$ 4,172
