THE MEANING OF 1927-1928 IN SOUTHWESTERN'S HISTORY

President ALBERT E. KIRK

THERE will be entered on the 1927-28 pages of Southwestern's History a number of developments significant both for the present and the future of the college. The following list includes the most significant items:

The fortieth anniversary forward movement calling for one and one-third million dollars was brought to a close Commencement Night, 1927, with a subscription of over one and one-half million.

The enrollment reached the highest mark thus far in the college's history, totalling 1,429.

After two years of study, a new curriculum went into effect, calling for more required courses and assuring a more liberal education to the students.

Southwestern took its first step in offering certain orientation courses.

The School of Fine Arts had its first year after the consolidation with the Winfield College of Music, and the increasingly splendid work fully justified that step.

Southwestern was the first school to set aside a period in the regular college schedule for the regular meeting of band and orchestra.

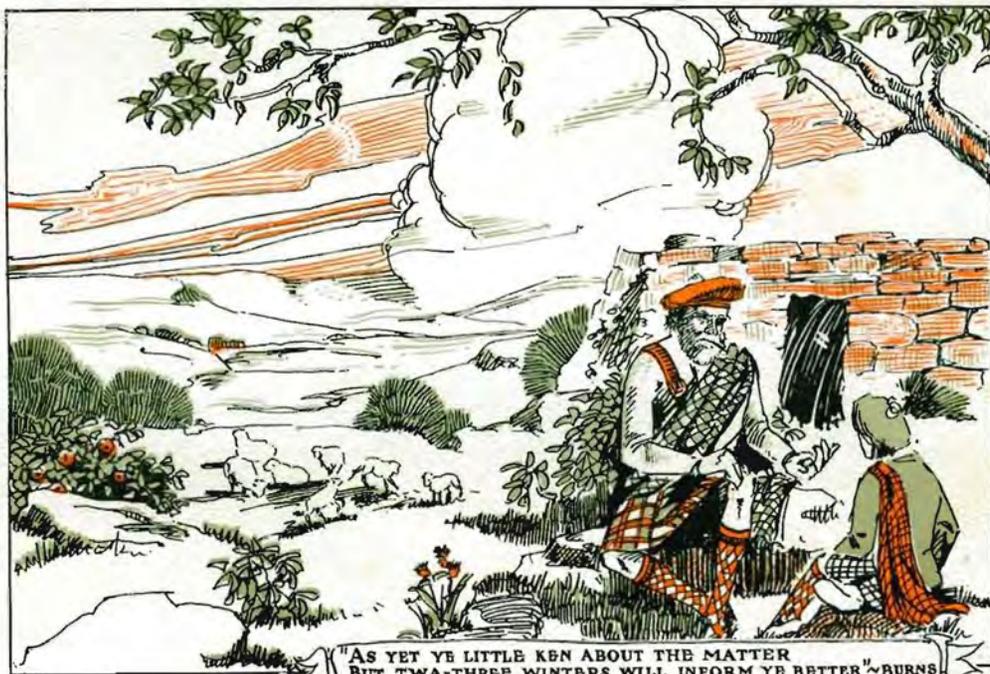

The plan of equal student representation of all college committees was watched by college authorities far and near and has demonstrated its great merits.

Southwestern began a policy of offering assistance to faculty members in doing graduate work.

A ten-year program under the present administration came to a close January 1, 1928, and the college authorities began to look forward toward the next ten years' development. That development will call for approximately one-half million dollars' additional buildings and equipment and the corresponding enrichment of the college life. Definite efforts will be made during that period also to secure the endowment of a number of additional chairs for the college.

ACTIVITIES

THE ORDER OF THE MOUND

IN 1917 the faculty of Southwestern, believing that scholastic attainment should receive some recognition, established the Order of the Mound. Each year, at the end of the first semester, the faculty elects to membership in the Order those Seniors who have maintained an average grade of "I" in seventy-five hours of residence work. Honorable mention is awarded those who have the "I" average but have not completed seventy-five hours of work in Southwestern.

When the society was first established the members were given permission to purchase the key of the Order. This custom was discontinued after several years, and the only insignia of honor bestowed upon the scholars was a purple and white ribbon. The Student Council of 1927-1928 moved the presentation of a more permanent memento of achievement, and selected as a suitable award a key similar to the original Order of the Mound key.

This year is also memorable because it is the first in which the honors have been equally divided between men and women. Six men and six women were elected to full membership:

ORGANIZED for the purpose of reflecting student opinion, the Student Council has approached more nearly to the fulfillment of that ideal in 1927-1928 than ever before. The plan of joint student-faculty committees, with equal representation from each body, was put into practice last year and has come into more effective use this year. These committees function on nearly every subject relating to student affairs, from curriculum and administration to athletics.

All activities in which students are engaged, demand their share of the attention of the Council. Recently an attempt has been made to formulate new policies in regard to the management of the Moundbuilder and the Collegian. Under the direction of the Council chapel exercises are conducted on one day each week by various student organizations. Another important phase of the work taken up this year has been the formulating of plans for the development of the new alumni athletic field.

Through the Council, Southwestern has become a member of the National Student Federation of America. Each year the school is represented at the conference of that organization to discuss with students from other schools the management and improvement of student affairs.

INTER-SOCIETY COUNCIL

THE Inter-Society Council was organized at the time of the organization of Alpha Beta Alpha and Beta Gamma Epsilon for the purpose of promoting unity and co-operation among the various societies. Since its establishment, Delta Kappa Chi and Delta Theta Pi have been added to the college societies, and many and varied are the matters brought up by the eight societies for settlement by the Council. It is the duty of this body to decide and enforce rush and pledge rules. The Little Theater plays are sponsored by the Council, and each year a growing interest is shown in inter-society dramatics. By compiling and publishing the grades of members of each society scholarship competition is inspired. One important step taken this year was the adoption of an honor list, thus giving the societies equal opportunity to display their talents in the Moundbuilder society section. A new plan adopted this year established an annual inter-society oratorical contest.

PROF. MACFARLANE
Sponsor

Council membership is composed of the president and one representative from each society. The Council does not elect a president, but business is transacted under the guidance of Prof. MacFarlane and Miss Keaton.

Y. M. C. A. -- Y. W. C. A.

ALTHOUGH the new discussion groups have occupied a large place in the "Y" program this year they have not excluded other activities which it has been the custom of the Christian organizations to sponsor. Their influence is extended beyond the college, for there are opportunities for social service and gospel work in surrounding communities.

Each Sunday afternoon a group of young men and young women conduct services at the County Farm. The Bible service, the singing, and the programs are greatly appreciated by the shut-ins.

Another group of students conduct a night school in the Mexican Settlement three nights each week. The common branches are taught by college men and instruction in cooking and sewing is given by the college women.

It has been the policy of the "Y" to bring noted speakers to the campus each year. This year Dr. Secrley, Stitt Wilson and Nelvin Sayre have appeared on Y. W.-Y. M. programs, delivered lectures in chapel, and given interviews to smaller groups of students.

Another important activity in which the Y. M. C. A. and the Y. W. C. A. members participate is the Gospel team work. The workers are divided into groups of five or six students and each group makes several visits to neighboring communities over week-ends and during Christmas holidays and Spring vacation. These students conduct evangelistic services and endeavor to stimulate Christian leadership among the young people by their mid-year institutes.

Y. M. C. A. - - Y. W. C. A.

A NEW type of weekly program for Y. W. and Y. M. members was devised this year. Discussion groups supplanted the traditional separate assemblies. Each group was led by a student and a professor. The purpose of the new method was to stimulate thought and the creation of definite attitudes toward campus problems and toward world problems.

During the first semester the theme was "To develop positive, dynamic, Christian character". The groups undertook to do this on a personal basis by dealing with the campus problems which really exist, and in their discussions included such topics as "Who tells you what to do?" "Changing boats at sea", and "These many things I dabble in", rather than "This one thing I do". These discussions gave many students a new outlook as well as a new interest in many phases of college life.

The second semester topic was the problem of "What we believe". The leaders first distinguished between beliefs which change from day to day, and stable beliefs or convictions. They then took up our beliefs about the world, about God, and about society, or the great world issues of today.

The groups were very successful and aroused much interest among the students. Judging from this year's success the plan is a real advance in "Y" methods, and has laid the basis for strong associations next year.

BELIEVING that by federating the religious organizations and interests of Southwestern a more effective program might be promoted, the officers of the Oxford Fellowship, the Student Volunteers, and the Friendship Circle organized the Life Service Federation. The membership includes all members of the individual organizations and also the groups interested in religious education and in social work. This year the Federation boasts sixty-two active and honorary members.

A regular meeting is held once each month, and at this time programs are presented by the various groups of which the Federation consists. The possibilities of life service in the fields of ministry, mission work, social service, religious education, and teaching, are studied.

The Federation members put into practice their social service theories by co-operating with the Y. W. C. A. and the Y. M. C. A. in the Mexican Settlement School.

THE LENEANS

IN THE fall of 1927 a group of students was chosen by Miss Edith Dielmann and two other members of the faculty to organize a dramatic club for the presentation of religious drama. The name, Leneans, was chosen because it was at the Lenean festival that the Greeks produced their religious dramas. It is the purpose of the Leneans to further the work of the church by making its message vivid by its presentation in dramatic form. This organization is the realization of President Kirk's desire for a permanent religious dramatic organization, and its success is due to his insight and inspiration and to the capable direction of Miss Edith Dielmann.

MISS EDITH DIELMANN
Director

As their first play the Leneans chose "The Rich Young Man", by Sarah Kingsbury. The first presentation, at Grace Methodist Church, was effective and well-received. The play was also given in First Methodist Church and in the Christian Church. The success of the production in Winfield led to its presentation in other churches of the Southwest Kansas Conference. Trips were made to Wichita, Newton, Hutchinson, Conway Springs, Wellington, Mayfield, Rock, and Arkansas City. The free-will offerings received at each performance are to be used by the Leneans for the purchase of new costumes and stage scenery.

The Leneans is to be a permanent organization. Each year new members will be voted into the organization by the director and the members, and a new play will be presented each semester.

CAMPUS PLAYERS

A NOTEWORTHY group of actors and actresses is the Campus Players organization. The successful dramatic productions of the players and that professional atmosphere which surrounds their activities makes Campus Players membership a supreme goal of achievement in the ambitions of many students.

Under the direction of Professor Helen Graham two plays are produced every year, one in the fall and one after May-day exercises. From the time of organization, 1919, until the present, a wide variety of play types have been produced, ranging from Shakespeare's "Macbeth" to Barrie's "Admirable Crichton". Among the most successful of recent plays are "A Bill of Divorcement", "The Enchanted April", and "School for Scandal".

Activities of the players are not limited to rehearsals and mere learning of lines. In addition, stage managing, property managing, advertising, and costuming must be attended to. Besides the directing and coaching work, not a small part of Professor Graham's time is spent on making scenes styled to fit the atmosphere of each play. At all times emphasis is placed upon an impressionistic rather than a realistic effect.

To be eligible for Campus Players a student must have taken a major role in a society play or a minor role in a Campus Players production. If his petition is unanimously accepted by the active members, he is placed on probation, during which time various staff duties must be performed by the applicant. A spring banquet is annually given for the newly elected members.

Top row—LING, RAY, BROWNFIELD, L. FRYE, BLAKE.

PI KAPPA DELTA

PI KAPPA Delta is the largest of national honor forensic societies, having now a membership of 6,400. It was organized at Ottawa University in 1913 through the co-operation of representatives from ten colleges of the United States. Had Arthur L. Crookham, Southwestern College's representative at the founders' conference, been able to convince the Southwestern directors that Pi Kappa Delta was not an ordinary Greek fraternity, our campus would have been honored with the first chapter. But the policy of our college was then, as now, anti-fraternity; hence it was not until in 1916 that the Southwestern chapter, Kansas Delta, was established.

MRS. FRED HENRY
President

The purpose of the organization is to promote the interests of inter-collegiate oratory, debate, and public speaking, and to encourage interest in these activities by conferring honor awards.

Kansas Delta chapter sponsors home debates and oratorical contests, and also holds several social meetings each year. Last fall at a covered-dish supper at "Prexy's Cabin" the new debate squad was entertained, and in the spring the fraternity held a formal banquet. After the debate and oratory season was over those eligible for membership were formally initiated.

Each year the Student Council awards those Senior members who have represented S. C. in either oratory or debate for two years, with Pi Kappa Delta keys. This year two Seniors were presented with the highest Pi Kappa Delta award, the diamond key.

PROF. J. THOMPSON BAKER
Coach of Oratory

ORATORY

A GRATIFYING growth in Oratory is manifested this year. Not only have larger numbers taken part in the various events, but the orations have been of a higher type. Marcus Gordon, a Freshman, won the Baker medal in the Oratorical Declamation contest. The men's Inter-Society was won by Roy Baker, a Junior. The Letherman Oratorical offers two cash prizes: William Wright, a Freshman, placed first and Lyman Johnson, a Senior, second. Out of a field representing all four college classes Luther Henshaw, a Sophomore, won the Men's Oratorical, and Catherine Schriver, a Senior, carried off the honors in Women's Oratory. Henshaw, representing Southwestern in the Peace Oratorical, tied for third place. Henshaw and Miss Schriver represented Southwestern at the State and O. K. Conventions respectively, and also at the National Pi Kappa Delta Convention in Tiffin, Ohio.

Southwestern this year initiated a movement which resulted in the formation of a new Oklahoma-Kansas Women's Oratorical League. A unique feature provides for several orators from each college to take part in a state tournament in both Oratory and Extempore. Six colleges of Oklahoma and Kansas are already members. Prof. Baker, of Southwestern, is the Executive Secretary.

The Inter-High Forensics Contests held here each year under the direction of the Coach of Oratory have grown until over one thousand contestants took part in 1927. New plans for even closer touch with Public Speaking in the high schools is an outstanding feature contemplated for next year.

Top row—DICE, SCHRIVER, BROWNFIELD, HOENER, LEARNED, MCKINLEY, PIERPOINT.

DEBATE

THE debating season of 1927-1928 was perhaps the most strenuous in the history of Southwestern forensics. It began in the middle of November and lasted until the middle of April. The squad met twice a week for conference and practice and held many confabs with the coach long after they should have been in bed.

The question was one of the most interesting ever discussed here: "Resolved, That the United States should cease to protect by armed force capital invested in foreign lands, except after formal declaration of war".

Two women's teams and four men's teams engaged in inter-collegiate debates. Sometimes they won and sometimes they lost, but still they went on --- almost forever.

There were four debates with the College of Emporia, one with Bethany College, three with Bethel College, three with Friends University, two with Wichita University, two with El Dorado Junior College, two with Sterling College, one with Kansas State Teachers' College at Pittsburg, one with the Central State Teachers' College of Oklahoma, one with Central College of Missouri, one with Loyola University, of Chicago, one with the University of Mississippi, one with the Kansas State Teachers' College at Hays, one with Colorado College, and one with Simmons University of Texas. The climax of the season came with the trip to the National Pi Kappa Delta Convention. Two men's teams and one women's team were chosen to represent Southwestern.

THE MOUNDBUILDER

DONALD GAFNEY
Business Manager

FROM a thin volume of some one hundred and twenty pages composed of a few photographs and numerous essays, short stories, and poems contributed by the students, has evolved our Moundbuilder of today. The first annual published by Southwestern College appeared in 1905 as *The Southwestern*. Not until 1911 was the title changed to *The Moundbuilder*.

Only since 1924 has a Moundbuilder been published each year. Until then the Junior class of alternate years had the privilege of publishing the annual. Now the Editor and the Business Manager are selected by the Publications Committee and they in turn choose the staff from all four classes. The policy of *The Moundbuilder* is determined by the Editor, the Business Manager, and the faculty adviser, Professor MacFarlane.

This year has seen the inauguration of a new policy by the Publications Committee. The Assistant Editor and Business Manager were chosen with the understanding that they would head the staff for the following year. The experience that the assistants gain by a year of administrative training should insure a vast improvement in Southwestern's publications.

THE COLLEGIAN

PAUL DICE
Business Manager

Each week The Collegian supplies the student body with information, entertainment and an object for criticism. As is the case with most college papers, the principal purpose of this publication is to keep a historical record of all the activities of the college. However, an attempt is made to reduce the monotony of stale news through the addition of feature material and humor.

The paper is sponsored by a board of publications that elects the Editor and Business Manager. The entire student body subscribes for the paper through the activity fee, and student contributions, whether news, features, or poetry, are always gladly received.

The staff has labored sincerely and, for the most part, faithfully, to gather and write the material for the paper. It is often a wearisome process and requires much determination. During the last semester the advanced journalism class aided materially by class-work contributions. The policy of the Collegian has been to exclude all offensive personalities and jests, such as often appear in school publications.

PI SIGMA PHI

PI SIGMA PHI, the honorary fraternity for letter men, was organized with the purpose of promoting the highest standards of conduct and of scholarship among the athletes and to maintain the high standard of sportsmanship that is a part of Southwestern's athletics. Each year the Senior letter man having the highest scholastic record for all four years is awarded a gold key. A similar award is also made to the letter man of any class who ranks highest in scholarship for the year. The membership is limited to those who have won the right to wear the purple "S", and the organization impresses upon the initiated the true meaning of the wearing of the "S".

The Pi Sigma Phi banquet which is held in the Spring is considered one of the outstanding social events of the year. It is attended by Pi Sigs and friends, and alumni who are letter men:

IT HAS been the custom of the Pi Sigs to sponsor a basketball game each year. This year they brought the national champion Hillyards team to Southwestern for a game. This undertaking was supported enthusiastically by the students and by the town, and proved a financial success for its promoters.

PI GAMMA MU, National Social Science Honor Society, was founded at Southwestern College in the Spring of 1924, by Dean Leroy Allen, then professor of Economics, who is still National President. The society has grown rapidly, and now has sixty chapters and over six thousand members.

The purpose of the society is to interest educated men and women in the scientific study of social questions in such fields as sociology, economics, commerce, business administration, law, political science, history, philosophy, psychology, religion, ethics, biology, geography, anthropology, and all sciences that contribute directly to the scientific solution of social problems.

The name of the society signifies "Students of Social Science". Its motto is "Ye shall know the truth, and the truth shall make you free". Its colors are white and blue, symbolizing light and truth, and its key shows a human figure running with the torch of science to solve urgent social science problems. "Social Science", the magazine of Pi Gamma Mu, is published quarterly under the direction of Dean Allen and of Miss Keaton.

GAMMA OMICRON

IT WAS in order that the Home Economics Majors of Southwestern might gain a broader view of the social and professional duties and privileges of their chosen work that the Home Economics Club was organized in October, 1921. In December, 1925, the club adopted as its new name the first letters of two Greek words that seem most fully to express the purpose of its members in their study and in their club activities. These letters, Gamma and Omicron, begin two words that in English mean "Knowers of domestic economy".

PROF. AMY GOLDSMITH
Sponsor

Sophomore, Junior, and Senior majors who are professionally interested in Home Economics, and whose grades meet a certain requirement are eligible for club membership. The jeweled tea-kettle and thimble worn by the girls symbolize the two phases of their work. Their colors yellow and white, are worn first in the felt tea-kettle that is the pledge badge.

From the beginning the organization has been a source of training and information, creditably filling a need which the classroom fails to fill.

BULL Club is an organization of Southwestern men banded together for a triple purpose: fellowship, amusement, and the promotion of school spirit and good sportsmanship. The club was founded in the fall of 1926. The name of the organization was changed this year to Sigma Moo Bull.

Membership was originally closed to Freshmen and to those engaged in a major sport, and was limited to twenty-one. By an amendment to the constitution, made early in second semester of this year, six letter men are now elected to membership. Meetings are held once each week for discussion and action upon questions of interest to the organization and the school.

During the year Sigma Moo Bull has presented a number of interesting chapel programs. Members of this organization claim the privilege of paddling the boys who "date" to football and basketball games, and the exercise of this privilege provides entertainment for the onlookers between halves of the games.

New members are elected in the spring to take the places of those who graduate. The initiation of the new members takes place at midnight on the banks of the Arkansas River.

THE DARK Derby Club was organized during the first semester by a group of students who felt the need of a live organization to promote school spirit and good sportsmanship. The founders met in the Fellowship room at the Library on December 13, and formed tentative plans for the club. Immediately after the Christmas holidays this group met again at Holland Hall. At this meeting the former plans were revised, new suggestions were incorporated, and the permanent constitution was drawn up. Professors MacFarlane, Short, and Chubb were invited to join the Derbies.

The ideals of the Dark Derbies are pep, sportsmanship and manhood. A unique purpose of the organization, and one which has caused considerable comment on the campus, is the promotion of equality of dating privilege between men and women.

The plans for the new organization were kept as dark as their derbies, and it was not until the first night of the second semester that the Derbies introduced themselves to the student body. Between halves of the College of Emporia basketball game, the forty members appeared and announced the name of the club and its purpose. At all of the basketball games thereafter the Derbies occupied a reserved section of the bleachers and loudly supported the team.

IT IS the purpose of the Women's Athletic Association to promote interest in athletics and good sportsmanship among the girls, and to stimulate pep for all college activities. The local chapter was established in 1924 under the leadership of Miss Lillian Cloud, director of physical education for girls.

The organization sponsors almost every athletic activity in which girls have been known to participate. Intramural teams have been organized in volley ball, basketball, baseball, track, and tennis. This year horseshoe pitching and croquet have been added. A certain number of points is awarded for participation in these activities and for hiking, keeping health rules, perfect attendance at gymnasium classes, and for scholastic achievement. When a girl has earned three hundred points she is entitled to membership in the Builderettes, the W. A. A. pep club. The highest honor which a member may win is the white "S" sweater which is awarded for two thousand points. Evelyn Larsen and Esther Felt, of the class of '28, are the first to win this award.

Under the direction of the W. A. A. a Health Week is conducted each year. One feature of the week this year was the election by the entire school of Miss Eleanor Corrie as the best sportswoman of the college.

THE VIOLIN CHOIR

THE VIOLIN Choir was organized in 1921 by Prof. Altvater as a class in ensemble training, which it remains to this day. Almost immediately, however, the group became popular locally as a concert organization. Since that time its influence has spread over the entire state and its work has become a subject of discussion by musicians in many other states. The Choir has appeared in nearly all of the larger cities of Kansas, besides a host of smaller communities, and has a notable list of return engagements.

PROF. ALTVATER
Director

When the Violin Choir was first organized it consisted exclusively of violins, which played in four-part harmony. The following year two violas were added to provide extra effects and to extend the range of the harmony. Two years later the Choir achieved its final form through the addition of two cellos. The normal scoring is now in six parts with the possibility of securing as many as twelve parts through the subdivision of sections. Each of the sections has a principal who is responsible for whatever takes place within the section, even to the tuning of the instruments.

The scores used by the Choir are mostly the work of the conductor, with occasional assistance from his advanced students. While most of the scores are arrangements from orchestral works, some of the most effective numbers used by the group have been taken from piano and choral works.

MEN'S GLEE CLUB

PROF. H. S. DYER
Director

THE MEN'S Glee Club has creditably represented Southwestern during this year, and has won for the school two coveted honors. In competition with eight other colleges in the Kansas Inter-Collegiate Glee Club Association contest held in Winfield on January 30, the Southwestern club won first place. On February 11, the club placed fourth in the Missouri Valley contest held in Wichita.

Thirty-eight men reported for practice at the first of the year. Later this number was reduced to a squad of twenty-eight men. With most of this year's squad as a nucleus for the Glee Club next year and the excellent material which will undoubtedly be attracted to Southwestern as a result of the first place won by the local club in the Kansas Inter-Collegiate contest, Southwestern looks forward to the winning of additional honors in 1928-1929.

Prof. Dyer has established a new era of music in Southwestern during this year by the use of music from the Concord Library of Yale and the Harvard Classic Library.

SOUTHWESTERN BAND

IN 1927-1928, for the first time, the band was given a two-hour period on the regular class schedule, and under the capable leadership of Prof. William R. Wehrend is well along the way of a finished musical organization. The personnel of the band consists of fifty students, the best band material available in the college.

PROF. WM. R. WEHREND
Director

The repertoire of this organization consists of such numbers as: "Panorama" by Barnhouse, "Faust" from Gounod's opera of the same name, Suppe's "Poet and Peasant" overture, and many other numbers among which are lively marches, novelties, and solos.

This musical group has filled a number of out-of-town engagements during the past year and has also been in demand for local concerts. The band is a fitting group to lead the school on to victory. "On Southwestern!", the band strikes up, and the hearts of the Builders stir to the occasion, whatever it may be.

SOUTHWESTERN SYMPHONY ORCHESTRA

THE SOUTHWESTERN Symphony Orchestra, though still in its younger years, has risen to an appreciable place in the musical life of the community in the past year. Its membership list has grown to sixty in number, and under the efficient conducting of Prof. William R. Wehrend it has become a constant source of musical enjoyment and education not only to this college and city, but to many other communities which the orchestra has visited on its various trips.

The orchestra is in the growing stage, and the outlook is bright. It is steadily advancing to the position of a "symphony unique", and will capture a premier place in the music life of Kansas.

The repertoire of the group includes, among others, such outstanding compositions as Beethoven's "Third Symphony", "Dreams of Love" by Liszt, "Finlandia" by Sibelius, the ever-popular "Woodland Sketches" by MacDowell, Rubenstein's "Kammenoi Ostrow", and the overture "Tancred" by Rossini.

The principal out-of-town engagements this year were taken separately and include Arkansas City, Newkirk, Oklahoma, and Blackwell, Oklahoma.

SCHOLA CANTORUM

THE Schola Cantorum, Southwestern's principal choral organization, has made an enviable record for itself in musical circles. The Schola was organized last year under the direction of Prof. H. S. Dyer and since its very beginning has made rapid progress in choral singing. There are now about sixty members in the organization.

The Schola Cantorum is not a glee club. It is strictly a choir, recognized as the only college choir in Kansas, and its programs are strictly of choral nature. Russian liturgical music, English classics dating as far back as the twelfth century, and chorales written by prominent musicians of more modern times compose the list of selections of their programs.

Included within the Schola Cantorum is the A Cappello Choir, which has presented several programs, both at home and in neighboring cities. This group also sang at the National Conference of the Methodist Episcopal Church in Kansas City in May. Just before the mid-winter holidays the Choir presented the first of its annual Christmas programs.

There is a growing need for good music which shall reach the majority of people and it is the purpose and aim of the Schola Cantorum and the A Cappello Choir to present the best in their field of music in order to meet this need. It is confidently hoped that they will become more and more outstanding among choral organizations of this section of the country within the next few years.

STRING QUARTET

AS A SUCCESSOR to the Violin Quartet which has been the chief small ensemble group of the instrumental department for several years, the Students' String Quartet was organized this year by Professor Altvater. As heretofore, he remains the coach and adviser of the group, whose members are: Lucile Lorton, first violin; Josephine Haynes, second violin; Paul Oncley, viola; and James Lightner, cello.

This is the first time that a string quartet has been possible among the students, although a faculty quartet has been in existence for several years and has presented an annual concert. Such an organization is an advance in the ensemble work of the school, for it opens a boundless field of music literature from many periods. Valuable as was the Violin Quartet from a departmental standpoint, the String Quartet, as a standard and almost perfect medium, presents a far greater range of possibilities in both literature and effectiveness.

The quartet has appeared several times this year, both independently and in connection with programs by the Violin Choir. They have been received with enthusiastic recognition of their fine and interpretative ability.

COACH WILLIAM M. MONYPENY

"Bill", in the two years in which he has been head coach at S. C. has established himself. He has turned out teams that have won the respect of all opponents and at the same time figured well in the percentages.

ASSISTANT COACH BURNS FRANKLIN

Burns coaches soccer and baseball, and assists "Bill" with the major sports. He capably coached backfield on the gridiron this year, while "Bill" gave instructions to the line.

 Bottom row—KERN, RICHARDSON, WRIGHT, CROUCH, COWAN, JONES, MESCH, MILLER, LANDER, WILCOX, MOTT, GIERTZ.

CAPTAIN VERNON SNODGRASS---170 lbs.
"Verne" proved himself valuable not only as a player, but in keeping up the morale of the team by his fighting spirit. He will be missed next year.

CAPTAIN-ELECT PAUL JONES---180 lbs.
"Jelly" was a versatile player, not flashy, but always dependable. He was the most consistent ground-gainer on the team, and will make a fine leader next year.

WHEN COACH "Bill" issued the call for football last fall fourteen letter men and a fine group of promising Freshmen responded. From this material "Bill" developed a team that gave a splendid account of itself, winning five conference games and losing only two. The men piled up a total of 139 points against opponents and had 86 points scored against them. Twenty-six men were awarded letters, and only one, H. Detter, is a Senior. Prospects are bright for a successful season in the new Central Conference next year.

BETWEEN HALVES, STERLING GAME.

MAURICE WILLIAMS—185 lbs.
 "Mutt" was a veritable tiger, both in offense and in defense. His stellar play at tackle won him a place on the first All-Conference team.

EDWARD NOLD—186 lbs.
 Ed had a good season at center, being chosen on the second All-Conference team. A great defensive player, alert and always following the ball.

CHARLIE FOSSEY—172 lbs.
 Charlie won his place on the first eleven by his great play at end. His spectacular pass-catching in the Friends game will long be remembered.

THE opening game of the Moundbuilder football season was with Bethel College on October 1. The game was played on Alumni Field, as the Fairground field was occupied by the Cowley County Fair. In spite of a steady drizzle, a pep parade was staged and hundreds of rooters occupied the temporary bleachers set up along the field.

Bethel was completely outclassed by the Buildersmen. Despite the mud, Richardson made long gains on end runs. In the fourth quarter, Lander returned a punt forty yards for a touchdown. The final score was 26-0, in the Builders' favor.

READY TO GO!

MERRITT MESCH--160 lbs.
"Mush", a promising Freshman, gave a good account of himself. He is a ball-lugger who is hard to stop. He also featured in receiving passes.

JOE ZILE--170 lbs.
Joe featured on the receiving end of the aerial game, giving a good account of himself at the wing position. He received mention on the third All-Conference team.

WILBUR LANDER--145 lbs.
"Bud" proved himself a capable player at quarter-back, a triple-threat man and a promising broken-field runner. He featured on the hurling end of the passing game.

ON OCTOBER 7 the Builders journeyed to McPherson to play the Bulldogs. The weather was ideal and the field was in good shape. Richardson opened the scoring in the first quarter with a beautiful 43-yard drop-kick. Fossey's defensive play and Richardson's end runs were the outstanding features of the game. McPherson threw a scare into the Builders in the third quarter when they carried the ball across for a touchdown and kicked goal, tying the score 7-7. S. C. came back with a vengeance and triumphed 21-7.

RICHARDSON GOING AROUND LEFT END FOR 12 YARDS.

JOHN O'HARA--162 lbs.
"Johnnie", a Freshman, promises to develop into a great halfback. He has ability to snag passes and is a good broken-field runner.

CARL RICHARDSON--145 lbs.
"Jack" is a quarterback of merit, feared by all on his end runs. A triple-threat man and a fine broken-field runner, he was chosen on the second All-Conference team.

CECIL CROUCH--155 lbs.
"Dutch" is one of the fastest ball-jugglers in the Conference. His speed and his ability to catch passes make him a great halfback.

ON OCTOBER 14 the Builders met Friends at Island Park in Wichita. Toward the end of the second quarter an aerial attack led by Lander and Fossey brought the first score, the latter receiving a long pass over the goal line for a touchdown. Friends rallied to tie the score 7-7. In the fourth quarter a smashing Builder attack led by Richardson placed the ball on the 15-yard line where Richardson drop-kicked a goal. Splendid interference was responsible for this great drive. Snodgrass intercepted a Friends pass in the closing minutes of play and dashed for a touchdown, enabling Southwestern to win 16-7.

O'HARA GOING AROUND RIGHT END FOR 8 YARDS.

LAWRENCE LING--186 lbs.
"Larry"'s ranginess and drive make him a powerful tackle. His offensive play was responsible for many of the gains made in the Wichita U. game this year.

BILL CRAWFORD--176 lbs.
Bill was practically a fixture at guard. His consistent play made him a valuable man in the middle of the line.

GEORGE SWARTZ--180 lbs.
George played a hard, smashing game at guard. His steady play made him one of the main stays in the middle of the line.

SOUTHWESTERN lost her first conference game to the Kansas Normals at Emporia on October 22 by an overwhelming score, 45-0. The Builders were not as out-played as the score would indicate, if first downs and ground gained mean anything. Most of the Normal score resulted from long runs behind almost perfect interference. The Yellow-Jacket machine could not be stopped after the opening minute of play when a Builder punt was blocked and recovered by a Purple player, resulting in safety. Williams, at tackle, and Herrin, at guard, played a great game for the Builders.

ON THE 1-FOOT LINE IN THE STERLING GAME.

DENNIS COWAN--162 lbs.
"Denny" proved a valuable man at fullback. His ability to hit hard and low won him his place on the team.

MORRIS KERN--160 lbs.
"Zip", a Freshman, was a real line-plunger, always driving for the last inch. He should give a good account of himself at full-back next year.

CARL RADLEY--170 lbs.
"Dick" proved himself a capable and dependable end, although handicapped by early-season injuries. He should make a strong bid for the first eleven next year.

S. C. SHOWED a complete reversal of form of the previous week and trounced Sterling 33-0. A pass, Lander to Mesch, opened the scoring near the close of the first half. The Builders had things their own way during the last half, running across for three more touchdowns. Detter and Wilcox made some brilliant plays; the former ran 45 yards for a touchdown in the last quarter. Nold, at center, starred by scoring two touchdowns --- one on a short kick and the other on a fumbled ball.

NOLD RECEIVING A FUMBLLED BALL FOR A TOUCHDOWN.

HARRY DETTLER--174 lbs.
"Red"'s versatility made him indispensable in the backfield. He "found" himself at fullback this year and gave a good account of himself.

BILLIE McCOOL--180 lbs.
Billie showed promise of being a coming player at guard this year. His experience this season should make him valuable material next year.

KARL WRIGHT--150 lbs.
"Picnic" was the lightest man in the line, but he used his weight to as good advantage as he did his ability to block, and to run interference.

ON NOVEMBER 11 the Wichita U. Wheatshockers invaded Winfield for the annual grudge-game. It was S. C.'s Home-coming Day, and over 5,000 people witnessed the game. A strong wind from the North made perfect play impossible, but it was a great game. Wichita U. scored near the close of the first half, but failed to kick goal. In the second half the Builders staged a rally, led by "Jelly" Jones. After carrying the ball the length of the field Jones went over for a touchdown. Zile kicked the extra point which proved to be the winning margin.

THE KICK-OFF --- HOME-COMING GAME.

WARREN WILCOX---145 lbs.
"Orlie", a Freshman, had a good season at quarterback. He is a fine passer and a good field general. More will be heard from him next year.

ALVIN ALLEN---215 lbs.
"Tub" used his weight to good advantage at tackle. He should make a strong bid for a position on the first eleven next year.

OSWALD HAUNSCHILD---202 lbs.
"Little Os" proved a capable understudy at center. His weight and drive made him a power in the line.

S. C. LOST her second conference game to the Baker Wildcats at Baldwin on November 18. It was the most spectacular game of the season, both teams featuring long runs and passes. The Builders were outclassed in the first half, Baker leading 7-0. The Wildcats scored again at the opening of the second half; then S. C. rallied. A blocked punt resulted in a safety for the Builders. Baker scored again on an intercepted pass. S. C. then staged a brilliant aerial attack mixed with end runs, which resulted in a touchdown. The Builders were headed for another score when the gun brought the game to a close, S. C. losing by a score of 8-20.

OKERBERG KICKING THE EXTRA POINT.

WILFRED OKERBERG---190 lbs.
"Oky"'s ranginess and weight made him valuable at tackle. A knee injury handicapped his play this season, but he will be heard from next year.

CLARK HERRIN---160 lbs.
"Vol" is a midget line-man, but his part of the line was never weak. He proved his worth in the Emporia Normal game this year, when he starred at guard.

GILBERT MOTT---175 lbs.
"Gilly" played a snappy game at tackle. With his experience this season he should make a place for himself next year.

SOUTHWESTERN closed the season on Thanksgiving day with the annual game with St. John's College at the Fairground. The Orange and Black showed unexpected strength, holding the Purple team to only one touchdown in the first half. In the second half a fumble by a Builder put the ball within the scoring zone for St. John's, but they could not make first and ten. Kruck drop-kicked for the only St. John's score. S. C. ran wild in the latter part of the game, pushing over three touchdowns. The Purple machine won with a final count of 28-3.

BASKETBALL

FLOYD BURKE

For four years Capt. "Billie" has been an out-standing player on the Builder basketball team, and for three years has been named a guard on the All-State team.

WM. MONYFENY
Starting the season with four Freshman in the regular line-up, Coach "Bill" developed a team that he could well be proud of.

ED NOLD

Captain-elect of next year's team. Eddie hit his stride this year at guard and proved a great strength on both offense and defense.

FOUR letter men, Captain Burke, Nold, Dunn, and Phillips, formed the nucleus for the basketball team. Coach Bill found some fine material among the new candidates --- all of them over six feet in height, fast, and players who had already made names for themselves in high school. The team opened the season at home during the Christmas holidays with a victory over Edmonds Teachers from Oklahoma. This team, consisting of four Freshmen, led by Captain Burke, gave a good account of itself and looked promising. After another victory, over the Wichita Elks, the Builders opened the Central Conference Schedule in Stewart Gym with the College of Emporia. The game was hard-fought, but S. C. won her first conference tilt 28-27.

HASKELL GIBBONS
"Gibby", a Freshman, made a good season record at forward and created much favorable comment at the National Tournament at Kansas City.

CHARLIE FOSSEY
"Cub", another Freshman "find", was one of the steadiest players on the team. His shots in the last half of the Hillyard game almost brought victory to S. C.

WILFRED OKERBERG
"Okey" never failed to get the tip on an opponent. He also contributed his share of points, besides playing a great defensive game.

THE BUILDERS lost a thrilling game to the Emporia Teachers, 33-28. In the return game at Emporia the Builders lost in the last minute of play by one point. Washburn, playing on her home court, fell before the Purple machine. The Builders returned to Winfield to play the Hillyards team. They tied the score 33-33, but in the last minute Hooker dribbled in for the necessary two points and S. C. lost. Wichita U. caught the Builders in a slump, as several members of the team were flu victims, both but games were hard-fought. S. C. lost the last conference game to Washburn, but decided to send the team to the National Tournament at Kansas City, where they won to the third round, and caused much favorable comment.

RALPH WINEGARNER
 "Wine", a Freshman, gave a good account of himself at forward. The experience gained this year should make him a valuable man next year.

DARRIEL DUNN
 "Du" had trouble locating the hoop throughout the season, but hit his stride in the National Tournament. His speed and floor work make him valuable.

CLYDE PHILLIPS
 "Ug" hit his stride late in the season. When called into the game at guard he gave a good account of himself, always fighting hard.

THE FIRST Central Inter-Collegiate Athletic Conference Basketball season ended with Pittsburg Teachers and Emporia Normals tied for first place. No team was outstanding, and the season was marked with upsets, with the championship in doubt until the last week of play.

MINOR SPORTS

TRACK, 1927

SOUTHWESTERN'S track team had a successful season in the spring of 1927. Although not winning all of the meets entered, the team gave a good account of itself on all occasions.

In the Oklahoma Relays at Norman the Builders finished in third place. This is one of the larger meets of this section of the country, and S. C. made a good showing. The two-mile relay team set a record for the distance, 8:20, by defeating Pittsburg Normals in a fast race.

At the Kansas University Relays, the largest in this section of the country, Southwestern placed two relay teams.

At a meet held in Wichita, with Friends University, College of Emporia, Wichita University, and Southwestern College represented, the Builders placed third.

Later in the season a meet was held at Newton with the following schools participating: Wichita University, Friends University, Bethel, McPherson, and Southwestern. The Builders won with a comfortable margin.

The Chilocco Indians also fell before the Builders in a dual meet.

Southwestern closed her track season with the State Meet held at Baldwin, where the team finished in fourth place.

RELAY, 1927

SOUTHWESTERN'S relay teams, though not victorious in all of the contests which they entered, gave a good account of themselves on all occasions. The two-mile relay team, consisting of Neville, Cain, Adams, and Thomas, set a new record, 8:20, for the distance, when entered in the Oklahoma Relays at Norman. The medley team, consisting of Shepherd, 440, Lockert, 220, Thomas, 880, and Neville, mile, finished in third place with a time of 7:18. The one-mile team, Johnson, Adams, Shepherd, and Flaherty, won second place with a time of 3:30. The quarter-mile team, consisting of Lockert, Rowell, Cain, and Flaherty, finished in fourth place. The time for this event was 43 seconds.

In the Kansas University Relays at Lawrence, the two-mile team won fourth place. The winning time was 8:15. The one-mile team placed sixth. The half-mile team, consisting of Lockert, Rowell, Cain, and Flaherty, placed fourth.

In the Kansas Conference Meet held at Baldwin, the Builder one-mile relay team, pictured below, won second place. Baker placed first and Pittsburg Normals finished third in this hotly-contested race. The winning time was 3:26.

Shepherd, Thomas, Lockert, Rowell, and Johnson are in school again this year.

SOCCER

THIS is the third year in which Southwestern has been represented by a soccer team. The game received considerable support this year, and a good squad was in training throughout the season. Seven veterans from the Southwestern State Championship team of last year formed the nucleus for this year's team. The Builders, captained by Kenneth Hunter, had a successful season. They won four games, tied two, and lost only one. Friends and Southwestern battled to a scoreless tie at Winfield early in the season. Later they played at Wichita and the game resulted in another tie, 1-1. A play-off game was scheduled and played at the Fairground in Winfield. It was a hard-fought game, with the Quakers winning by a narrow margin, 1-0.

The sports writers of the Southwestern Collegian and the Friends University Life picked an unofficial all-state team. Four Builders, Holman, Wright, Matthews, and Hunter were given positions on this mythical team. Hunter was honored by being chosen captain.

Four conference schools participated this year in the double round-robin schedule. Southwestern's record for the season is as follows:

Bethel	1;	Southwestern ...	2
Bethel	2;	Southwestern	4
Friends	0	Southwestern	0
Wichita U.	0;	Southwestern ...	1

BASEBALL, 1927

BASEBALL has not been a very popular sport in Kansas Conference circles, yet Southwestern has always been represented by a team. It has not yet been decided whether the sport will be continued in the new Central Conference which has recently been formed.

From the standpoint of games won the Builder team of 1927 did not have a successful season; however, every game was hard-fought, and the outcome undecided until the ninth inning. The team was composed largely of reserves from last year and new men, as only three letter men were available. Hall, catcher and a three-letter man, was one of the mainstays. Burke, a two-letter man who held down the first base sack, was a steady player and a good hitter. Hubbs, a one-letter man, and the third experienced player, played left field.

The Builders opened the season on the Alumni Field in a game with the Chilocco Indians, and were defeated by a score of 7-5. Hard luck camped on S. C.'s trail on the up-state trip. Two games were dropped to St. Mary's by close scores, and St. Benedict's nosed out a couple of victories. Games scheduled with Haskell Indians and Baker University were cancelled on account of rain. Southwestern lost the city series to St. John's by two close scores: 5-3 and 4-3.

TENNIS, 1927

SOUTHWESTERN has an enviable record in tennis. In 1925 Harold Lewis won the State Singles Championship. In the following year his younger brother, Jimmie, accomplished the same feat, and again in 1927 won the same honor. For the past four seasons the Builder double team has been winner in the State tournament.

The Builder team of 1927, consisting of Jimmie Lewis and Bob Sturns, had a very successful season. Friends U. lost two matches to S. C. Wichita U. was winner in one match, but was beaten in another match. The Kansas State Agricultural College team came to Winfield for a match which was played in the gymnasium on account of rain. The Builders triumphed, winning two out of three, but lost a return match. The Oklahoma Aggies won over S. C. in one match; no return match was played. The Builders also have to their credit a victory over College of Emporia. Two matches were played with St. John's College by Lewis and Sturns with Shull and Hubbard and with Hubbard and Phillips. The first match was a triumph for S. C., but the second went to the Johnnies.

In the qualifying tournament at Wichita both Lewis and Sturns qualified for the State Tournament singles. Playing together, they also qualified for the doubles. When the Builders entered the State Tournament at Baldwin they made a clean sweep. Lewis won the singles championship, and the doubles team won first place in that division.

Sturns did not return to school this year, but with Lewis on the campus and a good squad turned out for practice Southwestern should have another successful tennis season in 1928.

INTRA-MURAL BASKETBALL BOYS

INTRA-MURAL basketball is a new sport in Southwestern. It was inaugurated into the athletic curriculum last year, and eight teams competed in a round-robin schedule. The Rams and The Freshmen were tied for the championship at the close of the season with seven games won and one lost. In the play-off the Rams were victorious, 20-12.

There was a greatly increased interest in the games this year. Twelve teams were entered in the round-robin schedule and some fine games were played. Any student who is not a member of the regular varsity squad was eligible to compete, and some fast teams were organized. Preliminaries to the varsity games were played whenever possible, and considerable interest and rivalry was aroused, with the championship in doubt until the last game.

The Rams went through the schedule without a defeat until they met the College Hill Athletic Club in their last game, and were defeated 13-11. This defeat threw them into a triple tie for first place with the C. H. A. C. and the Midgets, each team having lost one game. However, the C. H. A. C. was defeated the following week by the Lost Battalion, and the Rams were tied for the lead with ten games won and one lost. A play-off game was scheduled and the Midgets emerged victorious and champions by a score of 23-22. This final game was one of the thrillers of the season, both teams demonstrating some fine basketball.

Following is the season standings of the teams:

	Won	Lost	Percentage
Midgets	11	1	.917
Rams	10	2	.834
C. H. A. C.	9	2	.820
Wildcats	8	3	.728

Second row—STUTZMAN, WATTS, REED, NICHOLS, H. WRIGHT.

INTRA-MURAL BASKETBALL GIRLS

AT THE mention of girls' basketball, many think back to the time when Southwestern girls played as a varsity team. Some splendid teams have battled for old Southwestern and excellent material was on hand for an even better team this year. However, progress has been measured in another direction. For the first time Southwestern did not have a girls' varsity. Attention was turned to class teams, in an effort to develop many enthusiastic players rather than a highly-trained selected few.

Since the establishment of the Women's Athletic Association there have been intra-mural teams in several sports. The interest in basketball has been stronger this year than ever before, due to the abolition of the girls' varsity.

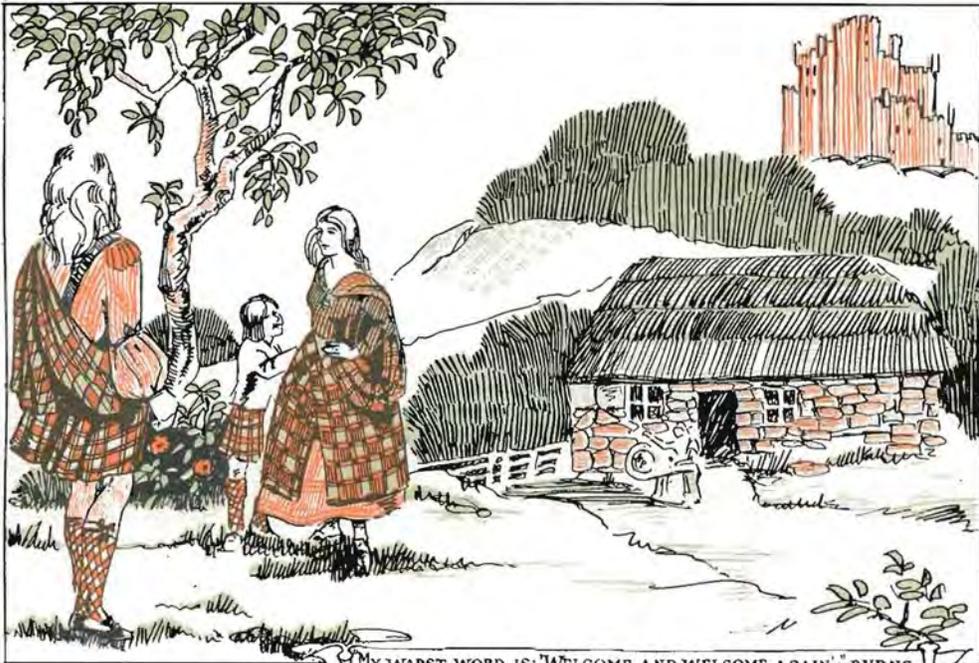

All intra-mural sports for girls are managed by the Women's Athletic Association with Miss Lillian Cloud as sponsor. For basketball this year the executive committee appointed a manager from each class. It was the duty of the managers to assist with the coaching and the selection of a team to represent each class. The sports managers for this year were: Louise Bailey, Freshmen; Vera Harnden, Sophomores; Leota Brush, Juniors; Esther Felt, Seniors.

At the close of the training season a round-robin tournament was played. By playing a round-robin, rather than an elimination tournament, each team played three games. The result of the tournament was: Sophomores, first place; Freshmen, second; Seniors, third; Juniors, fourth.

HISTORY AND PERSONNEL

BELLES LETTRES HISTORY

THE BELLES Lettres Literary Society holds a unique place in Southwestern history. Organized in 1889, only a few years after the founding of the college, this society, together with her brother, Athens, has witnessed many happenings during her lifetime, as well as the continual growth of her Alma Mater. She has seen the rise of Delphi and Sigma Pi Phi, her bitterest rival for many years, and later with the enlargement of the college, the organization of Alpha Beta Gamma and the Deltas.

From the first meeting of the year until the final program, when the graduates received their certificates and other honors were presented, Belles Lettres enjoyed a busy and prosperous year. Who does not remember the rush week festivities, particularly the Barn Party, with its loads of good eats, and the Virginia Reel danced to the tunes of some real fiddlers? Or the Former Belles program, when the members received a glimpse of the griefs and good times their older sisters had? And then there was Belles-Athenian day, the breakfast, luncheon, chapel program, pageant, and play, which marked the passage of another year of Belles-Athenian history.

Dramatics, forensics, music, women's athletics, scholastic attainments --- name any or all of the fields of activity in Southwestern and you will find Belles represented --- leaders and active participants in things worthwhile. That is one of the things for which Belles Lettres stands, and she strives to give her members training for proper citizenship.

"ARIA DA CAPA", LITTLE THEATRE PLAY

ATHENS HISTORY

ATHENS holds the honored position of the oldest society in Southwestern, having been organized in the fall of 1889. Athens was founded by seven or eight aspiring young orators for the purpose of providing an audience and opportunities for each of the members to speak. At first the organization was a secret one, known as "The Impromptu Speakers' Club". In February, 1890, the founders decided to establish a permanent society for men, and changed the name of the club to "The Athenian Literary Society". The organization had so grown in popularity that it was necessary to limit the membership to twenty-one.

In the early days there existed a bitter rivalry between Athens and Cadmus an older society. The exclusiveness of the older society was resented by Athenians, and the latter established a principle in their invitation, "Athens invites men of honor and ambition", which is still alive today. Athens endeavors to maintain among her members the highest standards of leadership, personality, and devotion to their Alma Mater, and sponsors both the social and literary life of the college man. Through the years since the founding of Athens she has provided leaders for every phase of school activity.

Athens and Belles Lettres have co-operated in many enterprises during their life-time. This year the spirit of co-operation between the two societies has been strengthened by joint meetings which are held once each month, and by several informal parties.

BELLES ATHENIAN HALL

SIGMA PI PHI HISTORY

SIGMA Pi Phi, symbolizing Friendship, Learning, and Loyalty, is the second oldest girls' society in Southwestern College.

Through the activities of the society, many of her members have developed talents which have brought honor to the school as well as to the society. They have represented Southwestern in debate, oratory, dramatics, and musical organizations.

Sigma is justly proud of her cast of "Cinderella Married" for winning the trophy in the Inter-Society dramatics contest. From a dramatic standpoint, in "The Youngest", Sigma-Delphi offered one of the most finished productions of the year.

Sigma has taken care of the development of the social life of her members through her many social activities. It was her plan to have a joint meeting each month with her brother society, Delphi. In addition to these meetings, she has had many surprises and parties. It is the annual custom to have the Old Timers' Day in the fall, a joint banquet with Delphi in the spring, and the breakfast given in honor of her seniors at the end of the second semester.

During this year Sigma has added to the attractiveness of the Sigma-Delphian Hall. New shades, drapes, and stage curtains were purchased by the two societies, and appropriate pictures were added by the Sigmas on the birthday of their society, September 28.

May Sigma Pi Phi ever strive onward; may her influence in the building of beautiful personalities be as great in the future as it has been in the past.

"THE YOUNGEST"

DELPHI HISTORY

THE DELPHIAN Literary Society was organized in 1899 by two members from the College department and several from the Academy. At first the new society met in an unfurnished room, but by 1907 they proudly claimed a carpeted and furnished hall. In 1911 Delphi and Sigma Pi Phi moved into the hall which they now occupy. At an expense of one thousand pre-war dollars the hall was made the "best literary society hall in the middle west", according to *The Moundbuilder* for that year. From time to time new furniture, pictures, and window-hangings have been added; during this year the two societies purchased new stage curtains, the envy of all other societies.

The chief function of literary societies is to develop college men and women for leadership. This duty Delphi has fulfilled for twenty-nine years. A glance at the records of each year reveals the fact that Delphi has had representatives in all school activities. For many years Sigma Pi Phi and Delphi were known as the musical societies, and it was their custom to present an annual operetta. This custom has been discontinued, but the plays presented in the place of the operetta have shown the same artistic qualities that the earlier musical programs possessed.

"Know thyself" is the motto of Delphi, and each year this society helps some sixty men to find themselves in relation to their college and to their fellow-men. Delphi looks upon her honors won with justifiable pride; but equally proud is she of the well-rounded lives of her members.

SIGMA-DELPHIAN HALL

BETA GAMMA EPSILON HISTORY

THIS year has been Beta Gamma Epsilon's eighth year of literary and social service to the school and to each member of the society. An unusual spirit of fellowship exists between Beta Gamma Epsilon and her brother society, Alpha Beta Alpha. This fellowship is strengthened by joint programs and activities which concern the two societies.

Some of the most interesting and appealing features of the society are the annual Rush, Hallow'een, and Christmas parties. The annual spring banquet is an event which adds a bit of formality to the social life of the society.

Beta Gamma Epsilon representatives have made creditable showings in the inter-society forensic events. They have also been successful in dramatics. Two of the most finished productions of the year were "Children of the Moon" and "The Wedding Dress".

Beta Gamma's talents have been well distributed among the various all-school activities this year, and the Senior members look with confidence to their sisters for the further development of their society and for its contribution to the up-building of the literary, scholastic, and social life of the school.

"CHILDREN OF THE MOON"

ALPHA BETA ALPHA HISTORY

ALPHA Beta Alpha was organized in 1920 at the time of the organization of the sister society, Beta Gamma Epsilon. It was the desire of the school authorities to provide two additional literary societies in order that all students might have the benefit of the society life. Members from Belles Lettres, Athens, Sigma Pi Phi, and Delphi and several faculty sponsors founded the new societies, and soon the rivalry between the older societies was expanded to include the new ones. In the same year the Inter-Society Council was established, and by this means the deadly antagonism which had existed between members of different societies was changed into a spirit of co-operation and friendlier enmity.

Literary development is emphasized by Alpha Beta Alpha, with the belief that it is an essential part of a college man's education. For this purpose the society holds contests in music, debate and scholarship. To the winners of the first two, medals are presented, and to the winner of the last the Chancellor's key is awarded.

The social life is not neglected, but each year has its full quota of parties, hikes, joint meetings with Beta Gamma Epsilon, and as the event of the year, the spring banquet.

BETA GAMMA-ALPHA BETA HALL

DELTA KAPPA CHI HISTORY

DELTA Kappa Chi is the youngest of the girls' societies in Southwestern. It was organized four years ago under the supervision of Mrs. Kirk, in order that all of the girls might have the privilege of society membership. The new society was organized by a group of inexperienced Freshman girls, but with the assistance of Mrs. Kirk and of other interested friends they succeeded in laying a good foundation on which to build a permanent society. A constitution similar to those of the other societies was drawn up, and the name "Delta Kappa Chi", signifying Democracy, Knowledge, and Culture, was agreed upon.

During the first year Pi Sigma Phi acted as the brother society of the Deltas. During the following year a brother society, Delta Theta Pi, was organized. The history of these two societies is marked by close co-operation. The weekly meetings are held jointly, with Delta Kappas and Delta Thetas alternating in the presentation of the programs. Numerous social events are enjoyed through the year. Annual parties are held at Halloween, Christmas, and on Valentine Day. The climax of the year's entertainments is the spring banquet.

The Deltas won the recognition of the school by capturing the trophy in the first Little Theatre contest with their play, "Suppressed Desires". The annual society play this year was "Arms and the Man".

"ARMS AND THE MAN"

DELTA THETA PI HISTORY

DELTA Theta Pi is the youngest literary society in Southwestern, having been organized in the fall of 1925. After the necessary membership was gained for the organization, attention was turned toward the selection of a suitable name. Delta Theta Pi, meaning "Democracy, Sacrifice, Faith" was chosen.

Nearly all of our members have taken an active part in the building of our society, and by the cooperation of all Delta Theta Pi has won a place among its older brothers. It is with pleasure that we look back to our enjoyable associations in our society programs, business meetings, and social affairs with Delta Kappa Chi.

Now our Society stands on a firm foundation and our efforts are turned from the building of a new society to the building of higher ideals and aims among our members. We believe that every college student can gain much value from active membership in an active literary society. For, from the literary society comes a spirit of loyalty through association, a feeling of responsibility, and a courage of confidence that can nowhere else be so easily and well attained.

{ SERVICE BASED ON UNDERSTANDING }

Quality — vs *Quantity* —

NOT 'how many'—but 'how well' is the standard that is reflected in School Annuals by Havens. Constant supervision and individual handling of your book is your assurance of satisfaction. Havens service includes, as well, complete co-operation by an experienced and willing staff in every phase of year book production.
