

Southwestern College

Forensic Psychology

Are you interested...

In applying psychology to the criminal justice and legal systems?

In working in civil courts to help with custody disputes, insurance claims, and lawsuits?

In counseling crime victims, investigating child abuse?

In determining the mental health status of a defendant before, during, and after the trial?

In working in corrections facilities to counsel inmates?

Requires a bachelor's degree & M.S., or PhD in clinical, counseling with forensic psychology emphasis or forensic psychology program.
