Note: Transfer cohorts are limited to transfers entering as Bachelor's-seeking students. Retained counts do not include transfers who have graduated before that semester with a Bachelor's degree or transfers who are enrolled in that semester as graduate-level students. Graduated counts only count those who have graduated with a Bachelor's degree and only count graduating transfers in the first semester in which they graduate (with Spring semesters including the following Summer graduates as well). Graduated percentages are the running total of graduates divided by the original cohort count. Retained/Graduated percentages are the unduplicated sum of retained counts and the running total of graduates counts divided by the original cohort count.
