I feel like this program was very beneficial for critical thinking skills and being able to write assessment reports that we need from time to time. After going through this program, her skills have improved to an executive level.

The knowledge and research-based practices she is gaining are directly benefiting our team and strengthening our overall effectiveness.

Dr. B is a great addition to our team. I'm looking forward to seeing what additional skills he learns and continues to bring to our district as a result of this advanced degree.
