

HERE THEY COME

It may seem as if summer is a quiet time on campus, and in some ways, it is. Parking lots are tranquil; classrooms tend to stay dark; residence halls are eerily quiet. But SC's summer was deceptively calm. Plant operations personnel, bookstore employees, admission and financial aid staff, computer updates, and other SC administrators and staff worked furiously to prepare for the arrival of the Class of 2010.

- SC's summer by the numbers:
- + Spaces remodeled: 4
(student center kitchen, Christy 15 and 16, radio station)
 - + Major concrete walks and entrances repaired: 16
 - + Person hours required in plant operations to prepare for the return of students: 18,235
